ACOLYTE AI · EXPLAINER STORYBOARD · V6

Workspace to Composer: intake to enrollment-ready

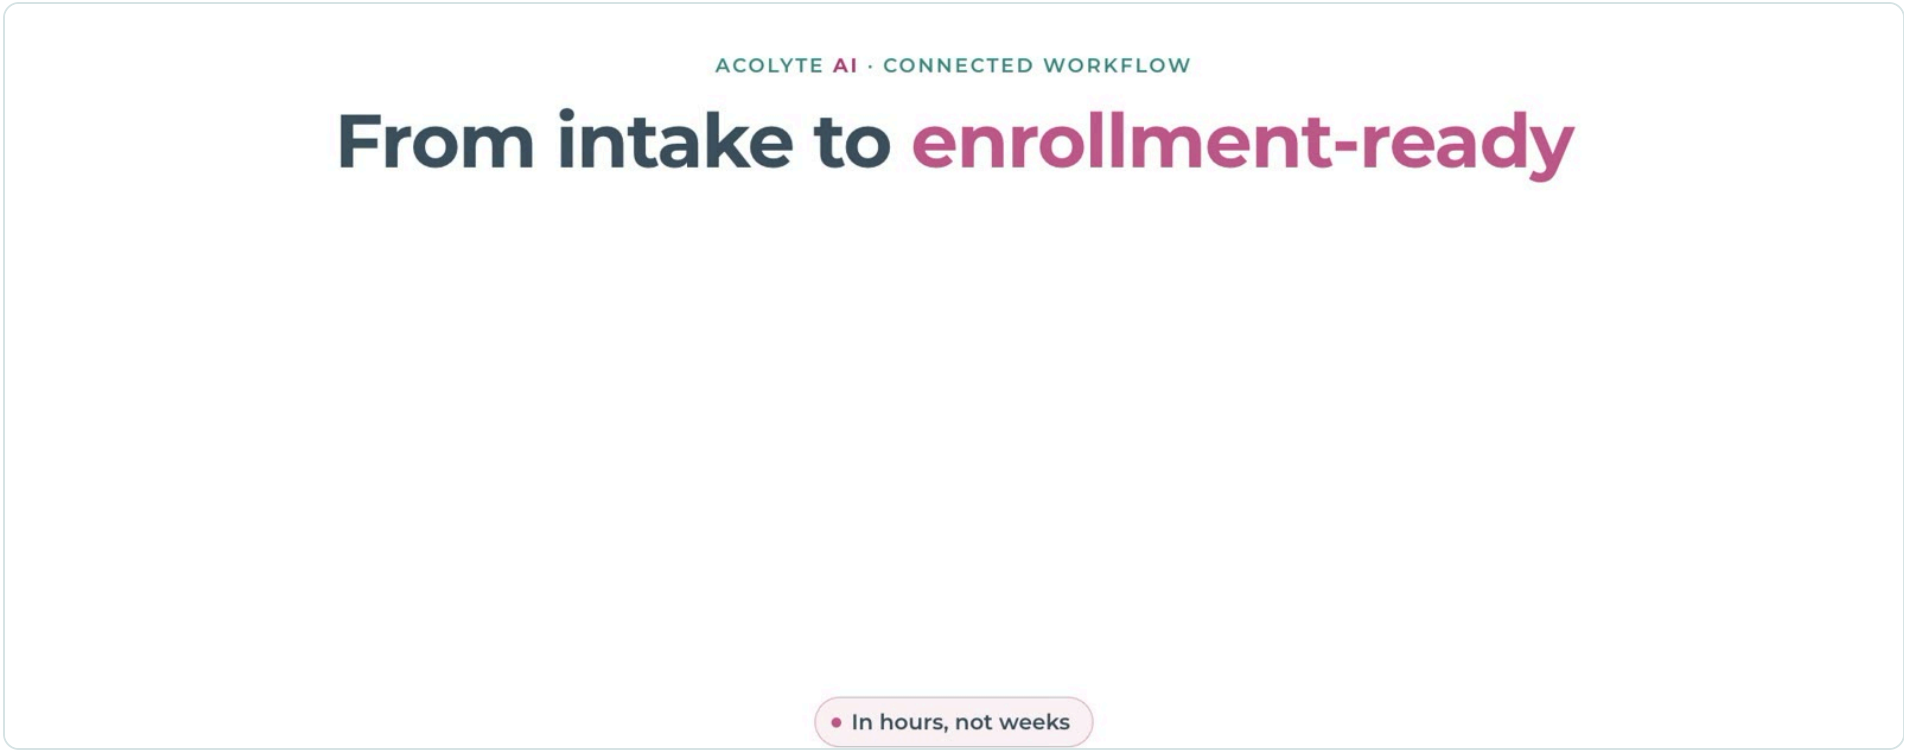

The scene-by-scene storyboard of the 4:51 demo video, with a still of every scene, the narration, the on-screen text and a one-line takeaway. Use it as context for building a presentation that tells the same story.

4:51
Runtime

23 scenes
Opening, Workspace, Composer, Live, Close

ABC Catering
Demo client (no real client names)

Sales + HR buyers
Brokers, benefits consultants, HR

OVERVIEW

The story in five parts

PART	SCENES	WHAT IT COVERS
Opening	1–2	Promise and why it matters
Workspace	3–6	Intake, documents, tracking
Composer	7–20	Parse and validate, guide, videos, hub, review
Live	21–22	Analytics for clients and teams
Close	23	Tagline

PRODUCTS

- **Workspace:** associate hub for client intake, tracking, support and reporting.
- **Composer:** parses and validates plan data, then builds the Hi-Res Benefits Guide, open enrollment videos and the digital benefits hub, with in-app review.

VALUE POINTS

A day of data entry becomes minutes of review, with every field linked to its source.

Weeks of email become in-app review: comment on any page, pin a moment in a video, resolve and approve.

One source of plan data feeds the hub, the guide and the videos, with conflicts caught first.

Real-time analytics shared with clients, plus insight for producers and account teams.

WORDING RULES

- Say "in hours, not weeks" for intake to enrollment-ready (not "minutes"), and "usually" (not "today") for the old way. Say "interactive chat agent" ("interactive chat" as shorthand), never "AI chatbot".
- Call them "open enrollment videos" with a client or associate AI persona, not "avatar videos".
- Documents uploaded in Workspace are shared with Composer; extra documents can be added in Composer.
- Plan details are extracted from current plan-year source documents. A prior benefits guide is not required, and mixing in last year's documents creates conflicts.
- Outputs are built from Acolyte templates in clear, employee-friendly language and design; they don't copy the look of a prior guide.
- Use only the demo client ABC Catering. Never show or name a real client or the brokerage.

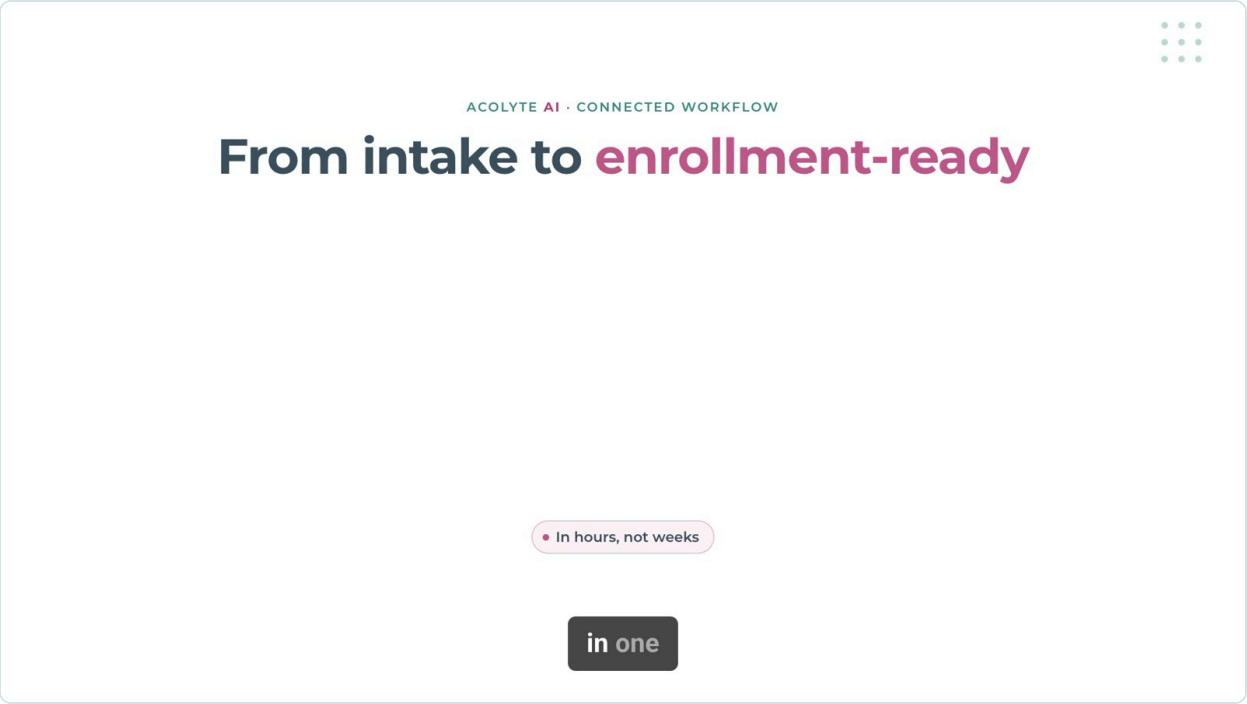

CLAIMS TO CONFIRM BEFORE EXTERNAL USE

- Shared uploads between Workspace and Composer: stated per the product review; the demo doesn't label where documents came from.
- Guide template and data: the guide demo calls its template wording "broker-owned" and says pulling values straight from Validation is "coming next".
- Figures: "266 fields", "print-ready PDF in seconds" and "thousands of hours across the organization" are demo values or internal estimates.
- Script edits (scene 16) are a mockup on the existing review screen, not a shipped feature.

BRAND

Montserrat; teal #3EA6AC (teal text #388083), rose #C6658C, navy text #3A4E60. Use both teal and rose.

Intro

Still at 0:06

SLIDE TAKEAWAY

Intake to enrollment-ready in hours, not weeks, in one simple workflow.

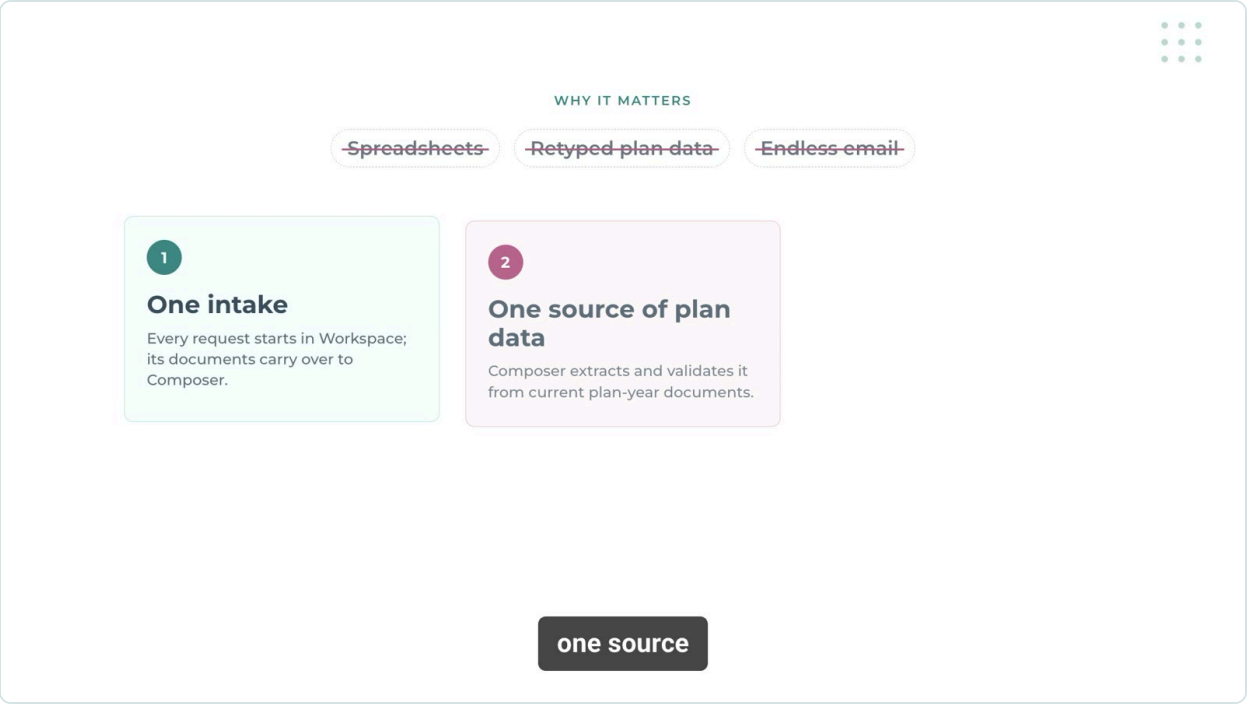

NARRATION

“Here's how Acolyte takes a client from intake to enrollment-ready in hours, not weeks, in one simple workflow.”

WHAT THE SCREEN SHOWS

Title card: "From intake to enrollment-ready," with Workspace and Composer side by side and the badge "In hours, not weeks".

Why it matters

Still at 0:18

SLIDE TAKEAWAY

Replace manual handoffs with one intake, one source of plan data and one place to review.

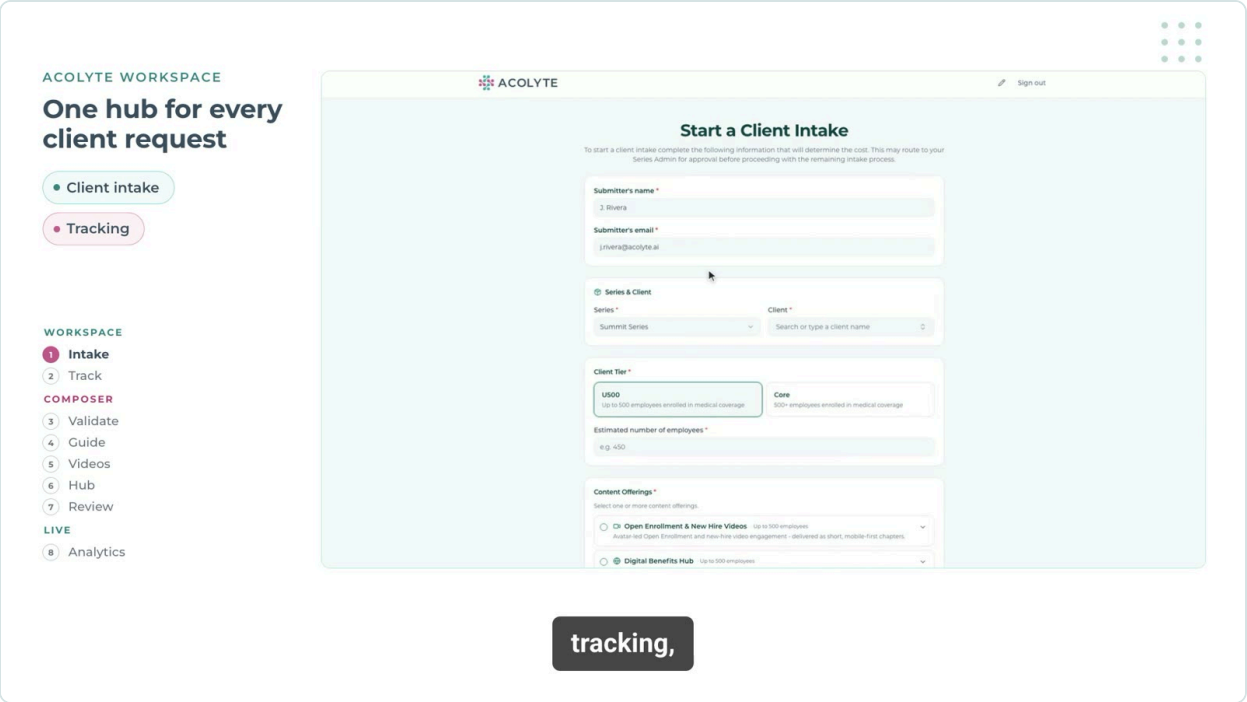

NARRATION

“Usually, that means spreadsheets, retyped plan data, and endless email back and forth. Acolyte replaces it with one intake, one source of plan data, and one place to review.”

WHAT THE SCREEN SHOWS

The old way (spreadsheets, retyped plan data, weeks of email) is struck through and replaced by three cards: one intake, one source of plan data, one place to review.

Workspace home

Still at 0:26

ON-SCREEN HEADLINE

ACOLYTE WORKSPACE

One hub for every client request

ON-SCREEN LABELS

Client intake | Tracking | Support

SLIDE TAKEAWAY

Workspace is the associate hub for intake, tracking and support.

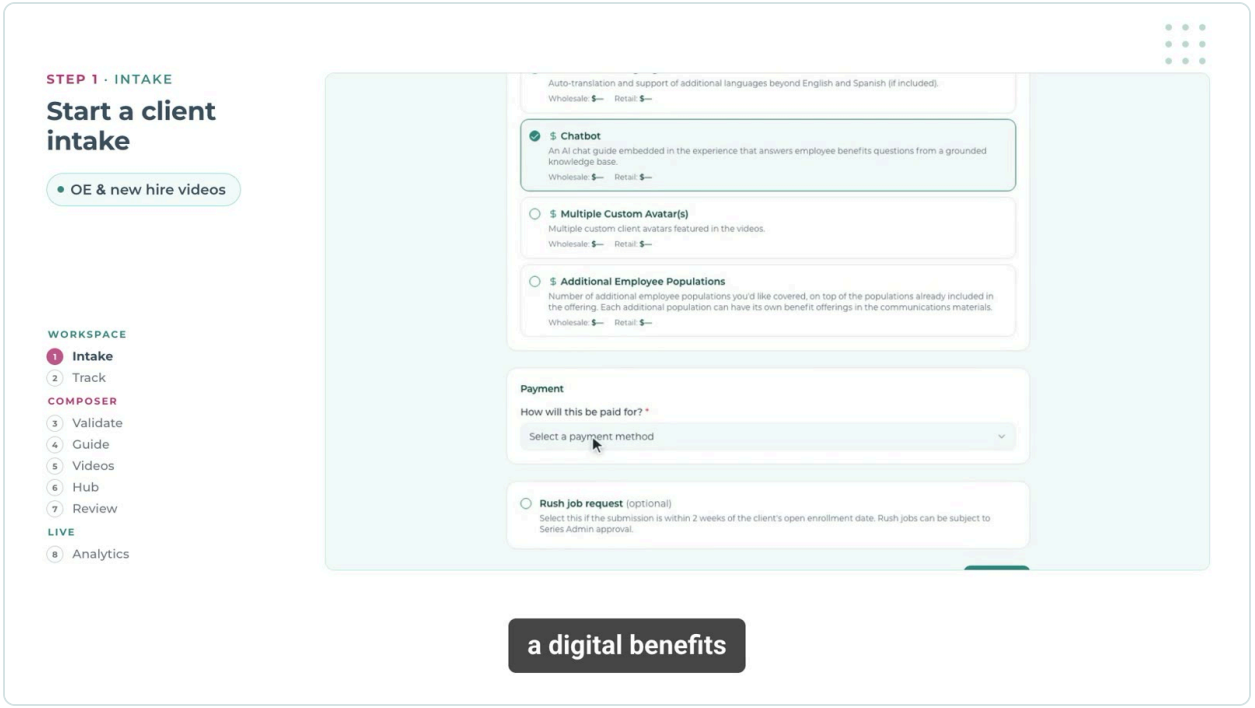

NARRATION

“It starts in Acolyte Workspace, the associate's hub for client intake, tracking, and support.”

WHAT THE SCREEN SHOWS

Acolyte Workspace home; the associate clicks Start a Client Intake.

Start the intake

Still at 0:38

ON-SCREEN HEADLINE

STEP 1 · INTAKE

Start a client intake

ON-SCREEN LABELS

OE & new hire videos · Digital benefits hub · Interactive chat agent

SLIDE TAKEAWAY

Pick the client and the deliverables in one form.

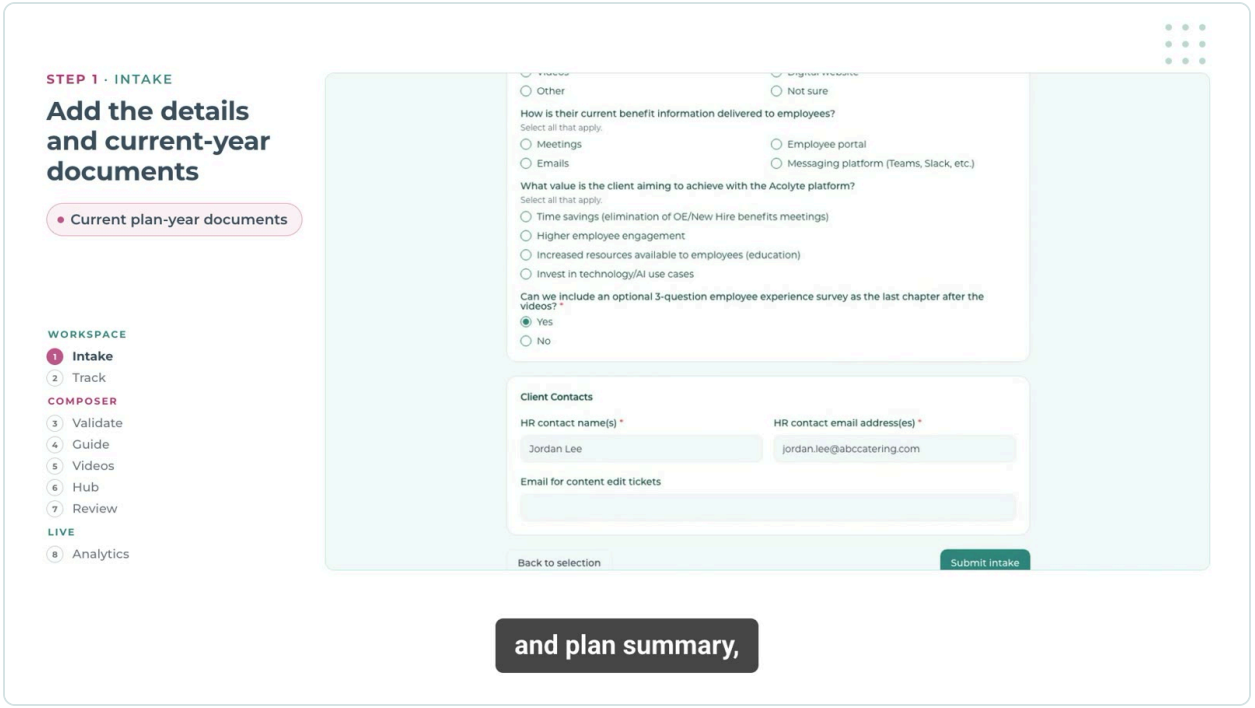

NARRATION

“Pick the client, here our sample client, ABC Catering. Set the package and headcount, and choose what they need: open enrollment videos, a digital benefits hub, and an interactive chat agent.”

WHAT THE SCREEN SHOWS

Intake form: pick the client (here the sample client ABC Catering), set the package and headcount 450, deliverables ticked (OE and new hire videos, digital benefits hub, interactive chat).

Intake details

Still at 0:53

ON-SCREEN HEADLINE

STEP 1 · INTAKE

Add the details and current-year documents

ON-SCREEN LABELS

Current plan-year documents | Team notified

SLIDE TAKEAWAY

Capture details once and attach current plan-year documents.

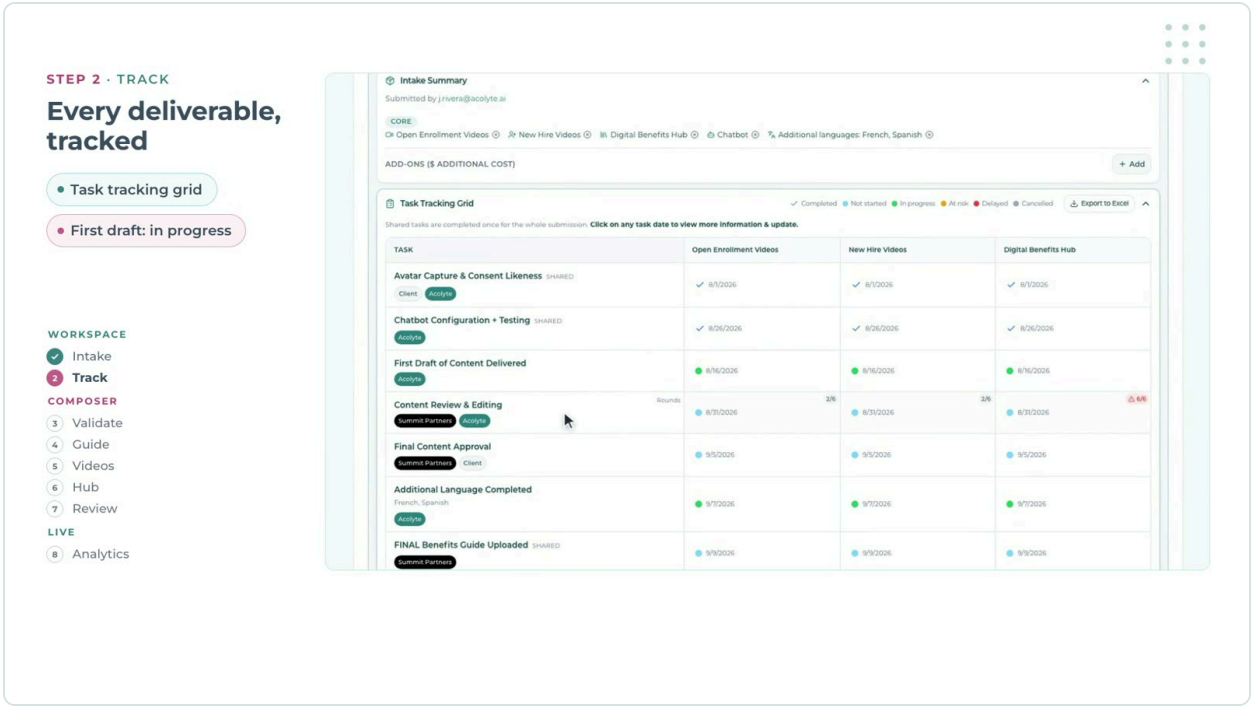

NARRATION

“Then the details: enrollment dates, branding, the AI persona, and contacts. Attach the current plan year's source documents, like the rate sheet and plan summary, then submit, and the team is notified.”

WHAT THE SCREEN SHOWS

Intake details auto-filled; the current plan year's Rate Sheet, Summary Plan Description and Benefits Guide are attached; intake submitted and the team notified.

Track it

Still at 1:05

ON-SCREEN HEADLINE

STEP 2 · TRACK

Every deliverable, tracked

ON-SCREEN LABELS

Task tracking grid | First draft: in progress

SLIDE TAKEAWAY

Every deliverable is tracked from kickoff to final approval.

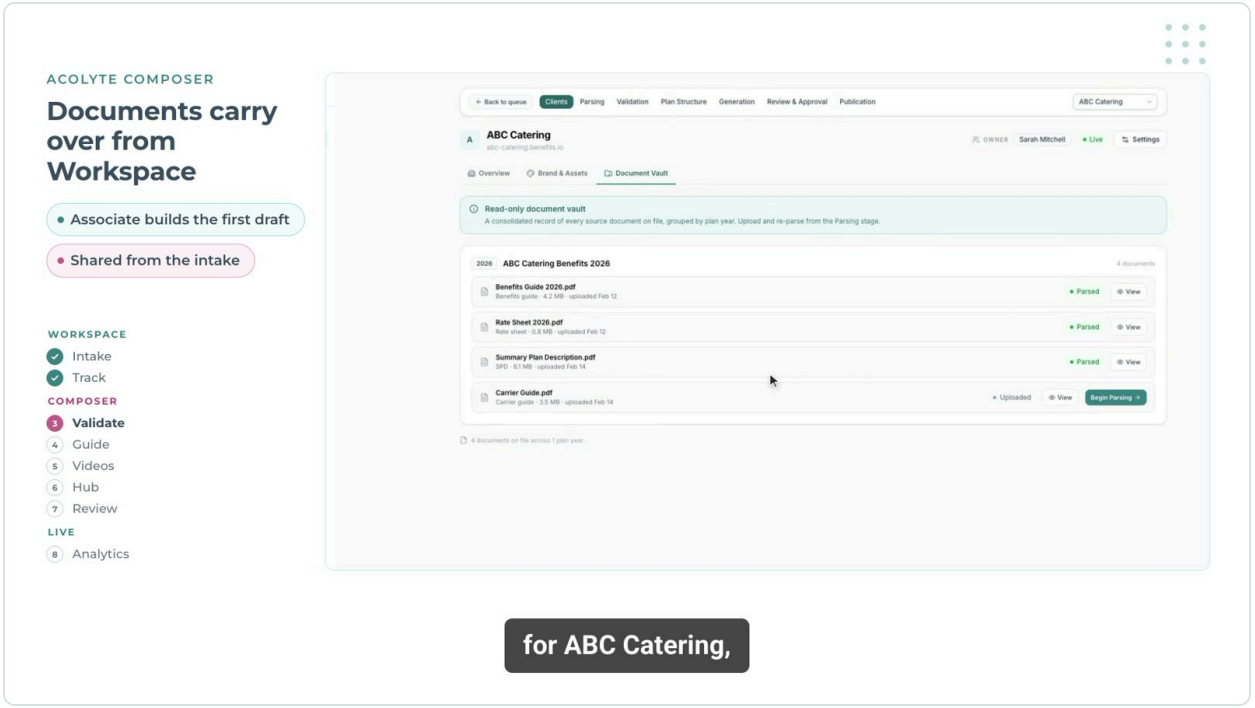

NARRATION

“Every deliverable is tracked on the client dashboard, from kickoff through first draft to final approval.”

WHAT THE SCREEN SHOWS

Client dashboard task grid: completed setup tasks, first draft in progress, review and approval not started.

Open Composer

Still at 1:17

ON-SCREEN HEADLINE

ACOLYTE COMPOSER

Documents carry over from Workspace

ON-SCREEN LABELS

- Associate builds the first draft
- Shared from the intake
- No double uploads

SLIDE TAKEAWAY

Documents uploaded in Workspace carry over to Composer: no double uploads.

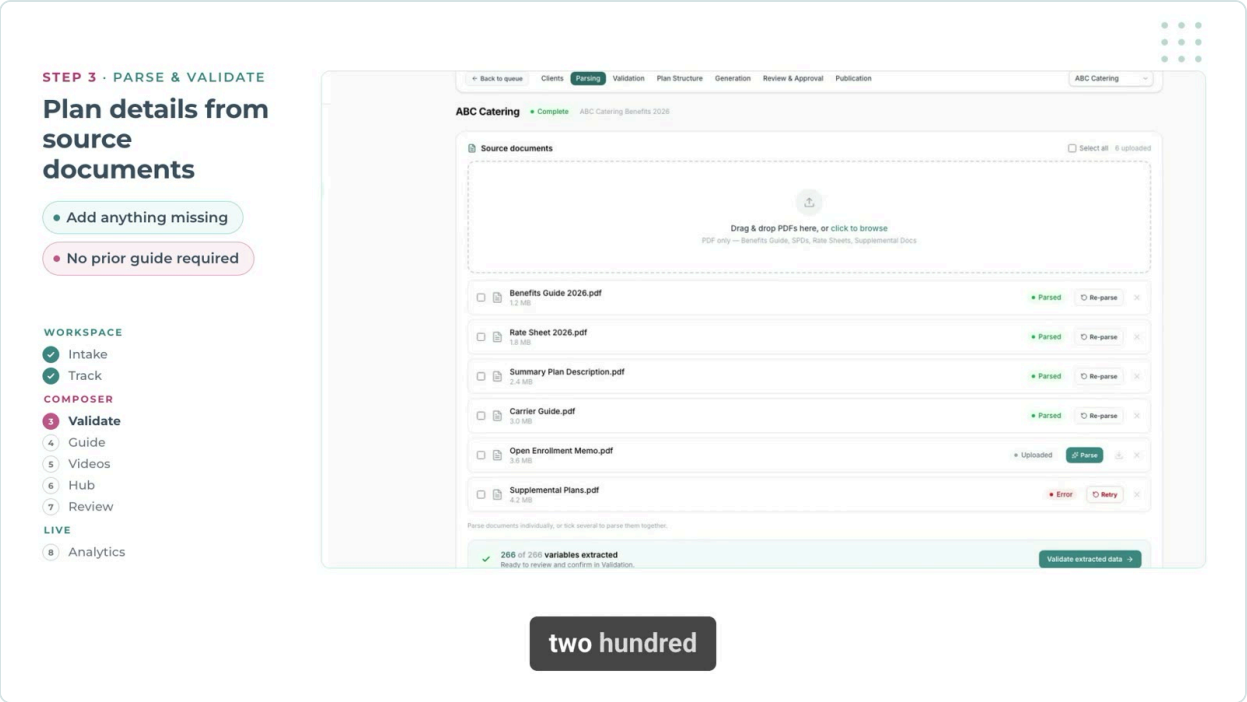

NARRATION

“Next, the associate opens Composer to build the first draft. The documents uploaded in Workspace are already on file for ABC Catering, so nothing gets uploaded twice.”

WHAT THE SCREEN SHOWS

Composer client list, then ABC Catering's Document Vault showing the documents from the intake.

Parse

Still at 1:32

ON-SCREEN HEADLINE

STEP 3 · PARSE & VALIDATE

Plan details from source documents

ON-SCREEN LABELS

- Add anything missing
- No prior guide required
- 266 fields, each sourced

SLIDE TAKEAWAY

Plan details are extracted from rate sheets and plan documents; no prior guide is required.

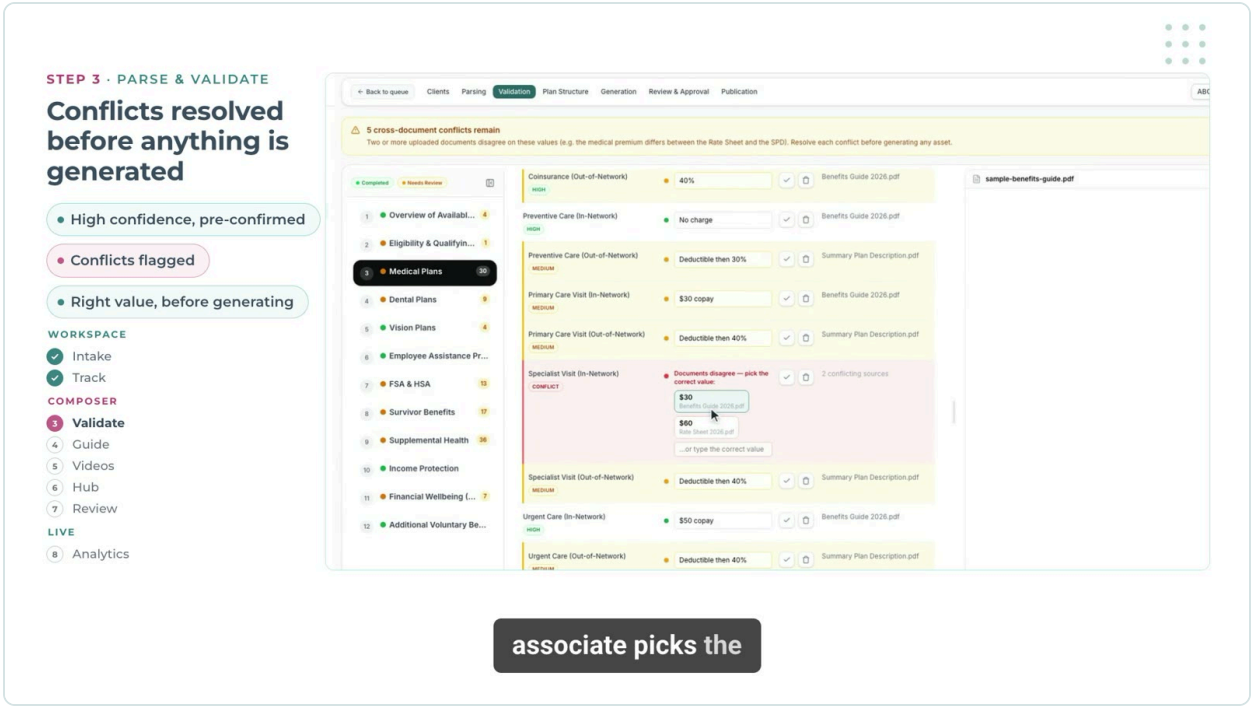

NARRATION

“Missing something, like a carrier guide? Add it here. No prior benefits guide is required: Composer extracts the plan-level details from rate sheets and plan documents, two hundred sixty-six fields, each linked to its source.”

WHAT THE SCREEN SHOWS

Composer Parsing: source documents listed, a carrier guide parsed, 266 of 266 fields extracted with confidence counts.

Validate

Still at 1:46

ON-SCREEN HEADLINE

STEP 3 · PARSE & VALIDATE

Conflicts resolved before anything is generated

ON-SCREEN LABELS

- High confidence, pre-confirmed
- Conflicts flagged
- Right value, before generating

SLIDE TAKEAWAY

Conflicts are flagged and resolved before anything is generated.

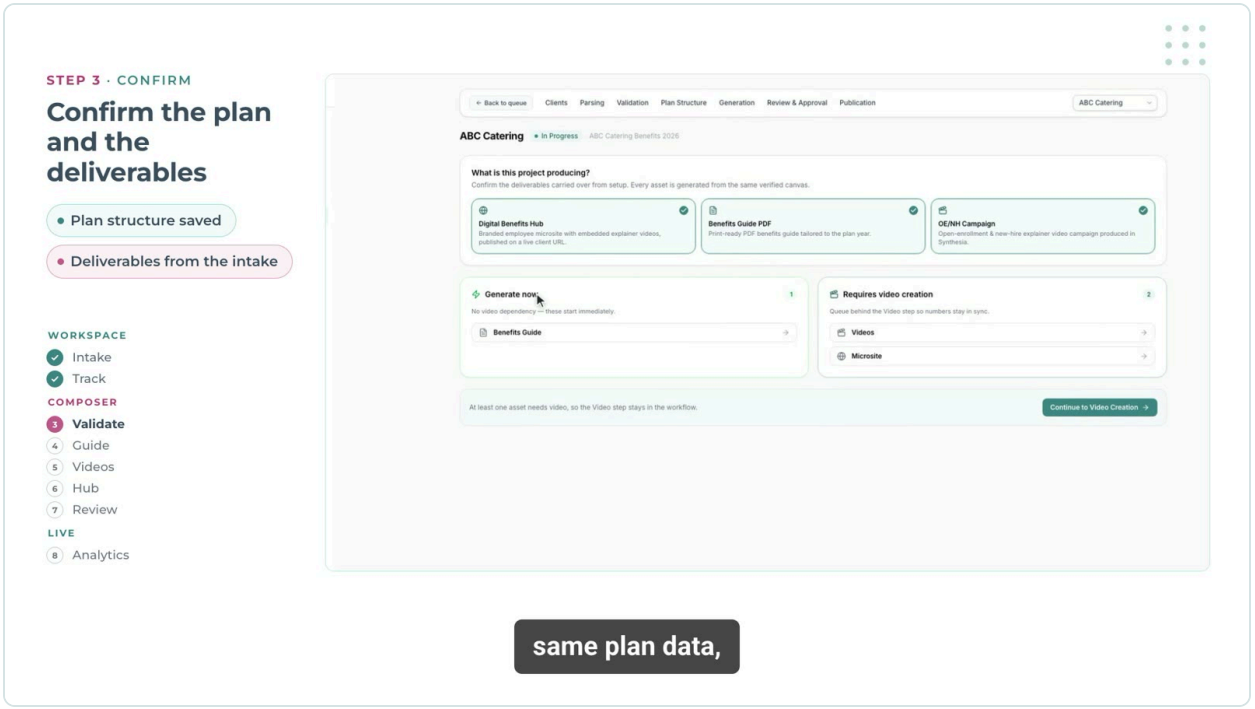

NARRATION

“Then the associate validates. High-confidence values come pre-confirmed. Where documents disagree, Composer flags the conflict, and the associate picks the right value before anything is generated.”

WHAT THE SCREEN SHOWS

Validation: banner "5 cross-document conflicts remain"; the Medical Plans chapter shows a specialist copay that differs between two documents; the associate picks the right value.

Plan and deliverables

Still at 2:00

ON-SCREEN HEADLINE

STEP 3 · CONFIRM

Confirm the plan and the deliverables

ON-SCREEN LABELS

- Plan structure saved
- Deliverables from the intake
- Numbers always match

SLIDE TAKEAWAY

Confirm the plan and deliverables once; outputs stay in sync.

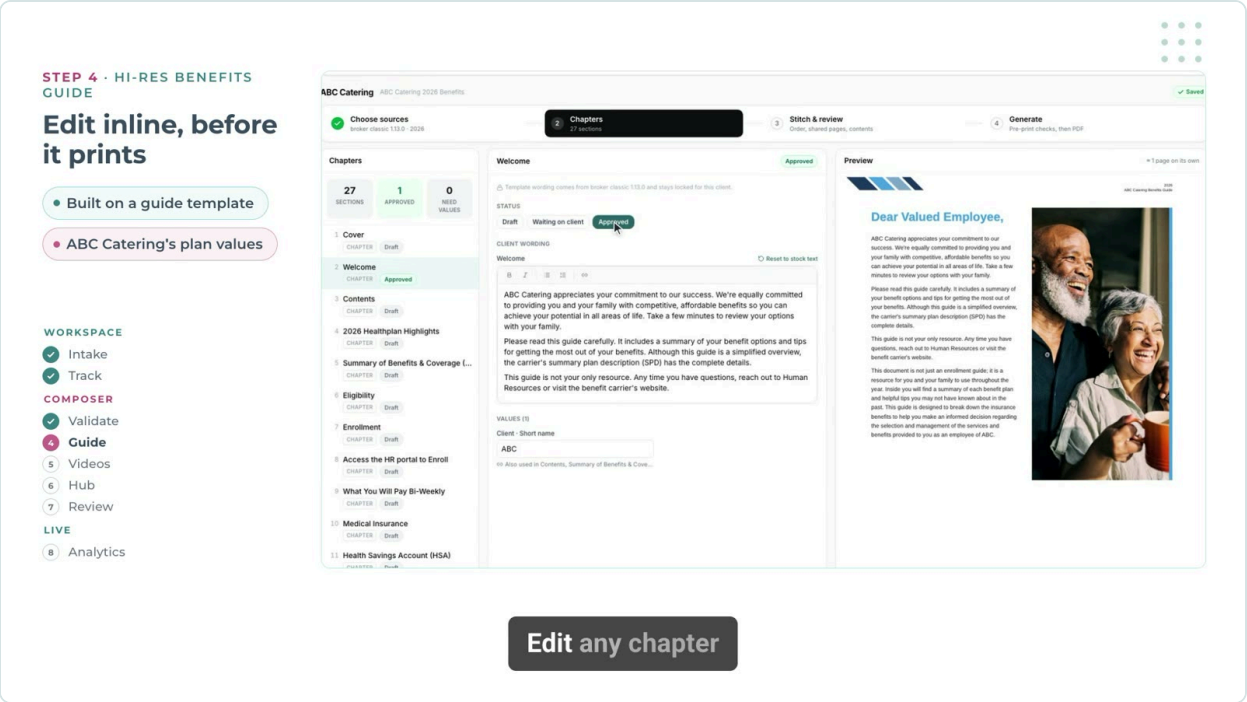

NARRATION

“Next, save the plan structure and confirm the deliverables from the intake. The guide can start right away, and the videos and hub use the same plan data, so the numbers always match.”

WHAT THE SCREEN SHOWS

Plan Structure saved, then Confirm Assets: Digital Benefits Hub, Benefits Guide PDF and OE/NH Campaign; the guide can start now, videos and hub follow.

Hi-Res Benefits Guide: edit before print

Still at 2:15

ON-SCREEN HEADLINE

STEP 4 · HI-RES BENEFITS GUIDE

Edit inline, before it prints

ON-SCREEN LABELS

Built on a guide template

ABC Catering's plan values

Wording approved

SLIDE TAKEAWAY

The guide is built on a template with the client's plan values, and edited inline.

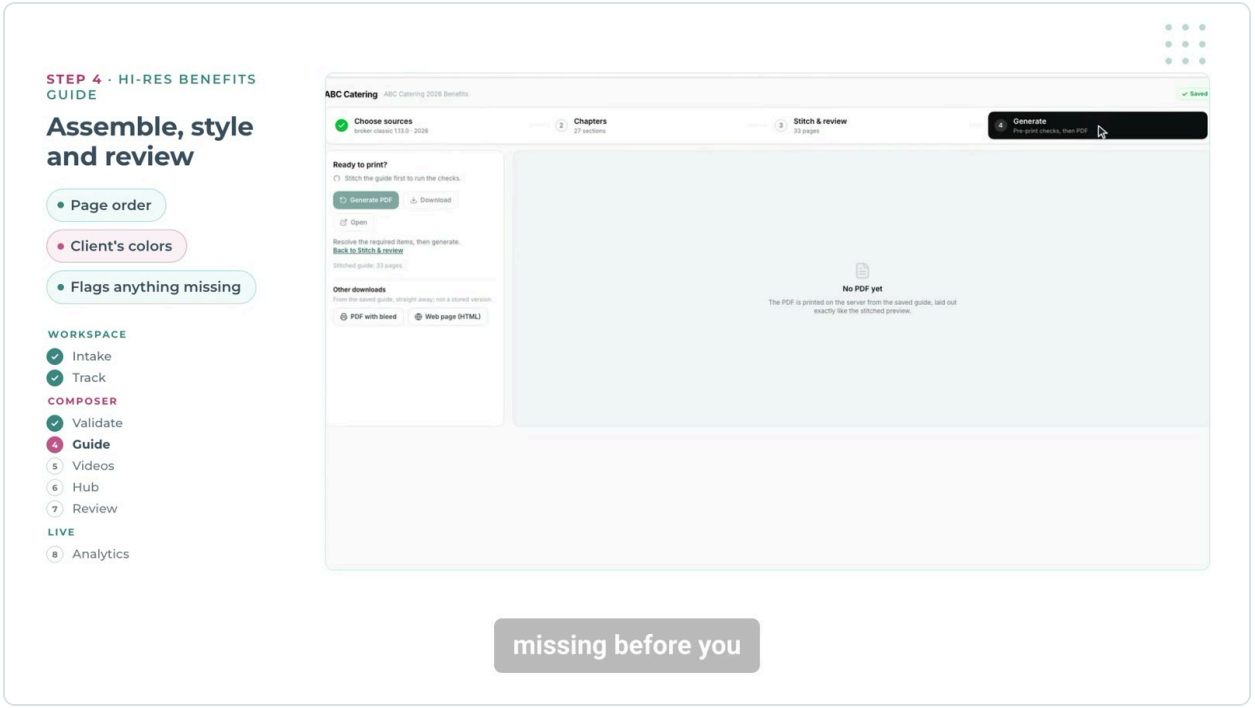

NARRATION

“First, the Hi-Res Benefits Guide. The layout and wording come from a guide template, not last year's design, with ABC Catering's plan values filled in. Edit any chapter inline, and mark the wording approved.”

WHAT THE SCREEN SHOWS

Hi-Res Benefits Guide editor: chapter list, inline edit to the Welcome chapter, status set to Approved, live page preview.

Assemble and review

Still at 2:28

ON-SCREEN HEADLINE

STEP 4 · HI-RES BENEFITS GUIDE

Assemble, style and review

ON-SCREEN LABELS

Page order | Client's colors | Flags anything missing

SLIDE TAKEAWAY

Assemble and check the full guide before it prints.

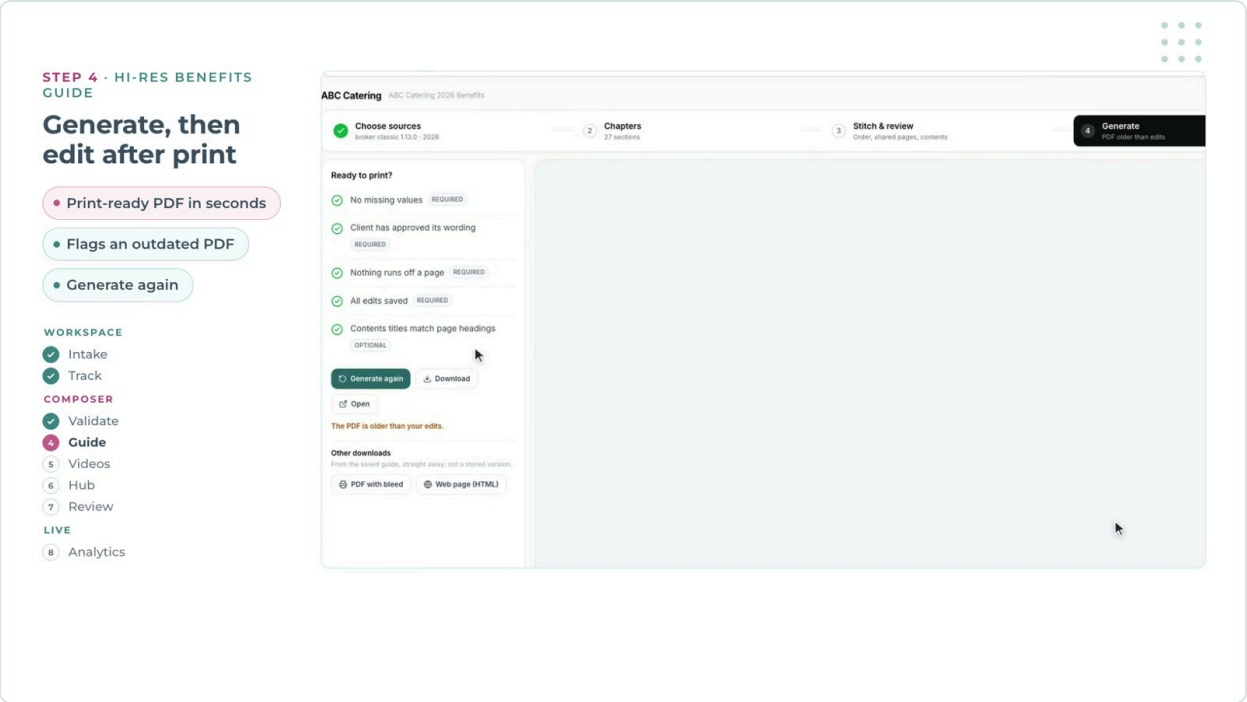

NARRATION

“Then assemble the full guide: page order, shared pages, and the client's colors, with a review list that flags anything missing before you print.”

WHAT THE SCREEN SHOWS

Assemble and review (Stitch & review in the app): page order, shared pages, the client's color palette and pre-print checks.

Generate, and edit after print

Still at 2:43

ON-SCREEN HEADLINE

STEP 4 · HI-RES BENEFITS GUIDE

Generate, then edit after print

ON-SCREEN LABELS

- Print-ready PDF in seconds
- Flags an outdated PDF
- Generate again

SLIDE TAKEAWAY

Print-ready PDF in seconds, and easy to update after print.

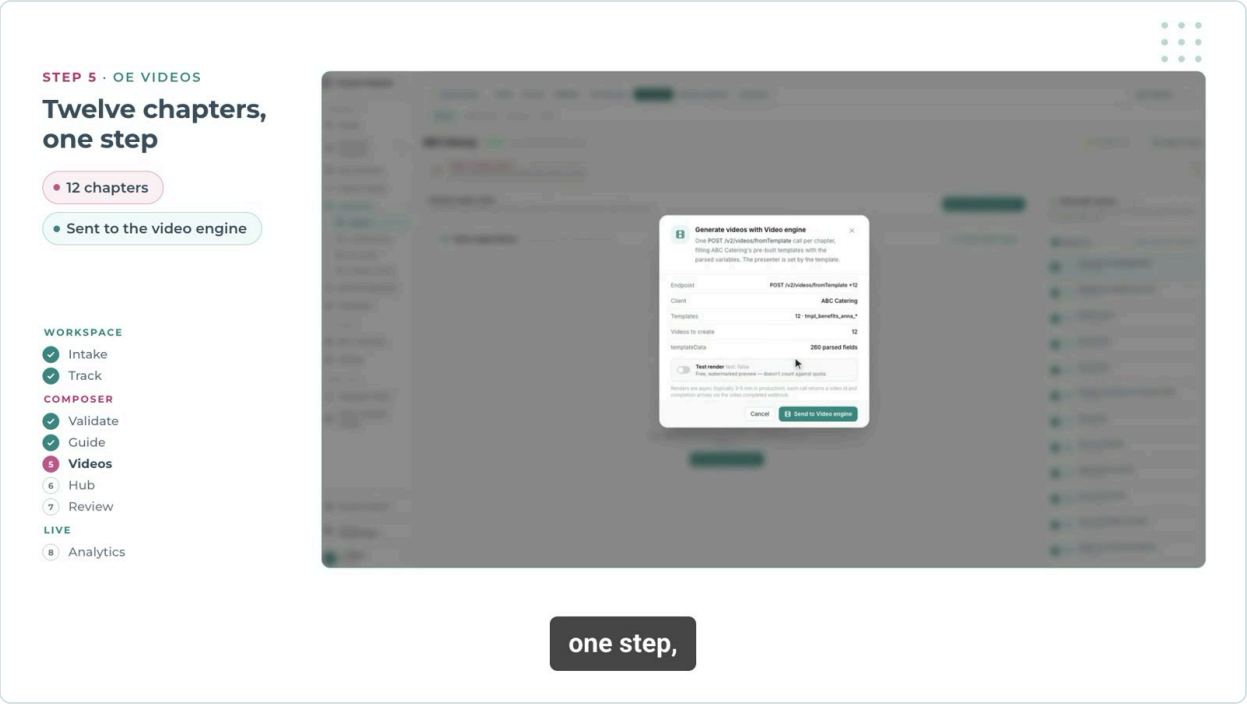

NARRATION

“Generate the print-ready PDF in seconds. Need a change after it prints? Edit the chapter, Composer flags that the PDF is out of date, and you simply generate again.”

WHAT THE SCREEN SHOWS

Generate the print-ready PDF; edit a chapter after printing; the PDF is flagged out of date and generated again.

The videos

Still at 2:56

ON-SCREEN HEADLINE

STEP 5 · OE VIDEOS

Twelve chapters, one step

ON-SCREEN LABELS

12 chapters | Sent to the video engine

SLIDE TAKEAWAY

Twelve open enrollment video chapters go out in one step.

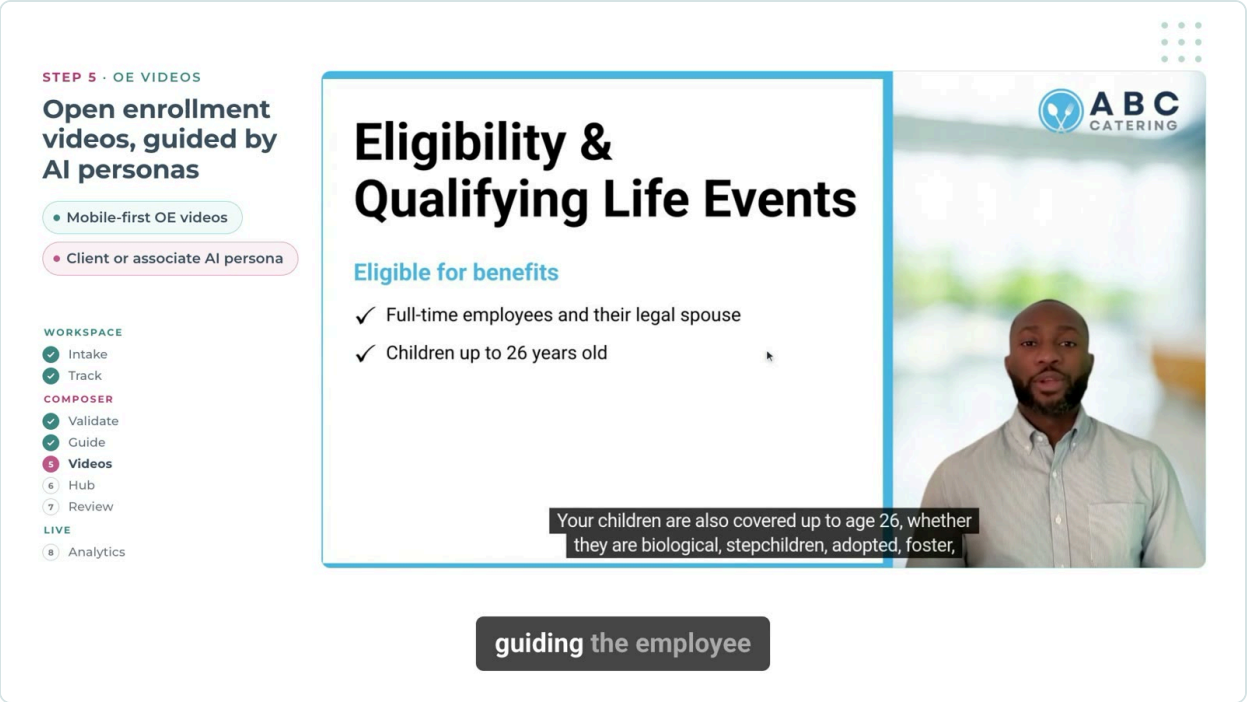

NARRATION

“Then the open enrollment videos. Twelve chapters, from medical plans to the 401(k), go to the video engine in one step, each filled with its own plan details.”

WHAT THE SCREEN SHOWS

Composer Videos: twelve chapters selected and sent to the video engine.

Video result

Still at 3:07

ON-SCREEN HEADLINE

STEP 5 · OE VIDEOS

Open enrollment videos, guided by AI personas

ON-SCREEN LABELS

Mobile-first OE videos

Client or associate AI persona

SLIDE TAKEAWAY

Mobile-first open enrollment videos with a client or associate AI persona.

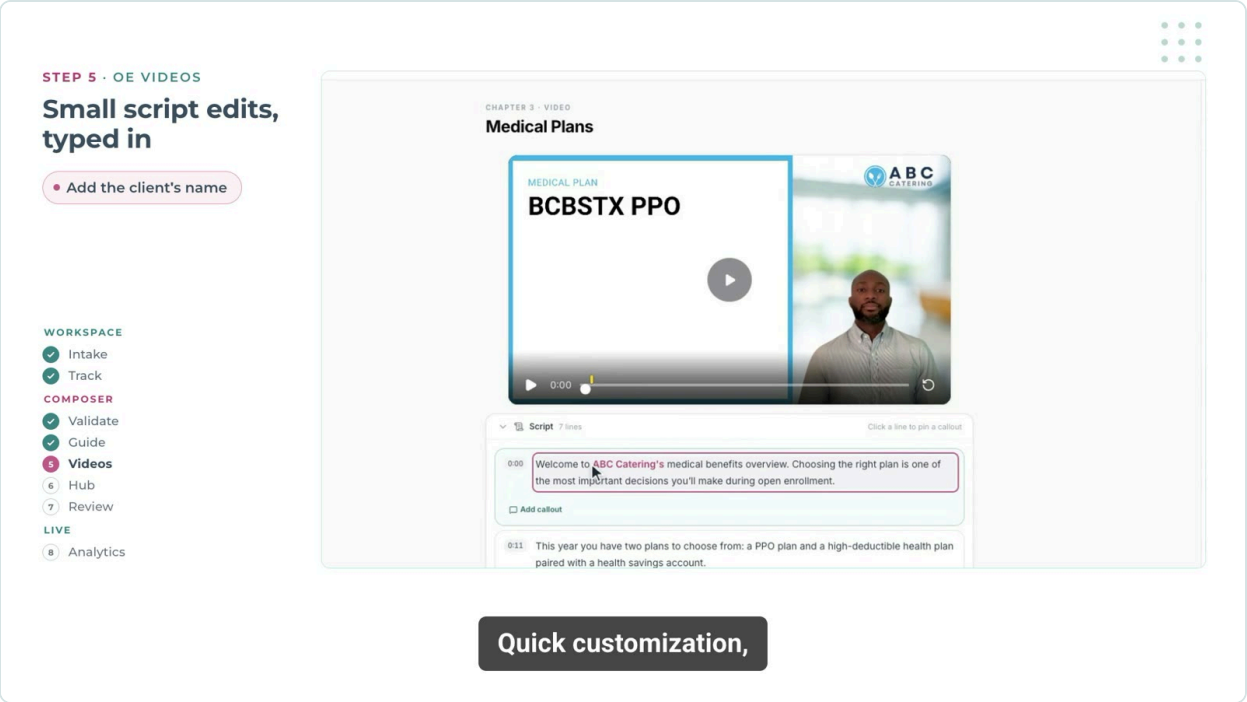

NARRATION

“Each chapter becomes a short, mobile-first open enrollment video, with a client or associate AI persona guiding the employee through their choices.”

WHAT THE SCREEN SHOWS

A finished chapter video playing: an AI persona presenting the medical plan options.

Small script edits

Still at 3:19

ON-SCREEN HEADLINE

STEP 5 · OE VIDEOS

Small script edits, typed in

ON-SCREEN LABELS

Add the client's name | No rebuild needed

SLIDE TAKEAWAY

Small script customizations without rebuilding the video.

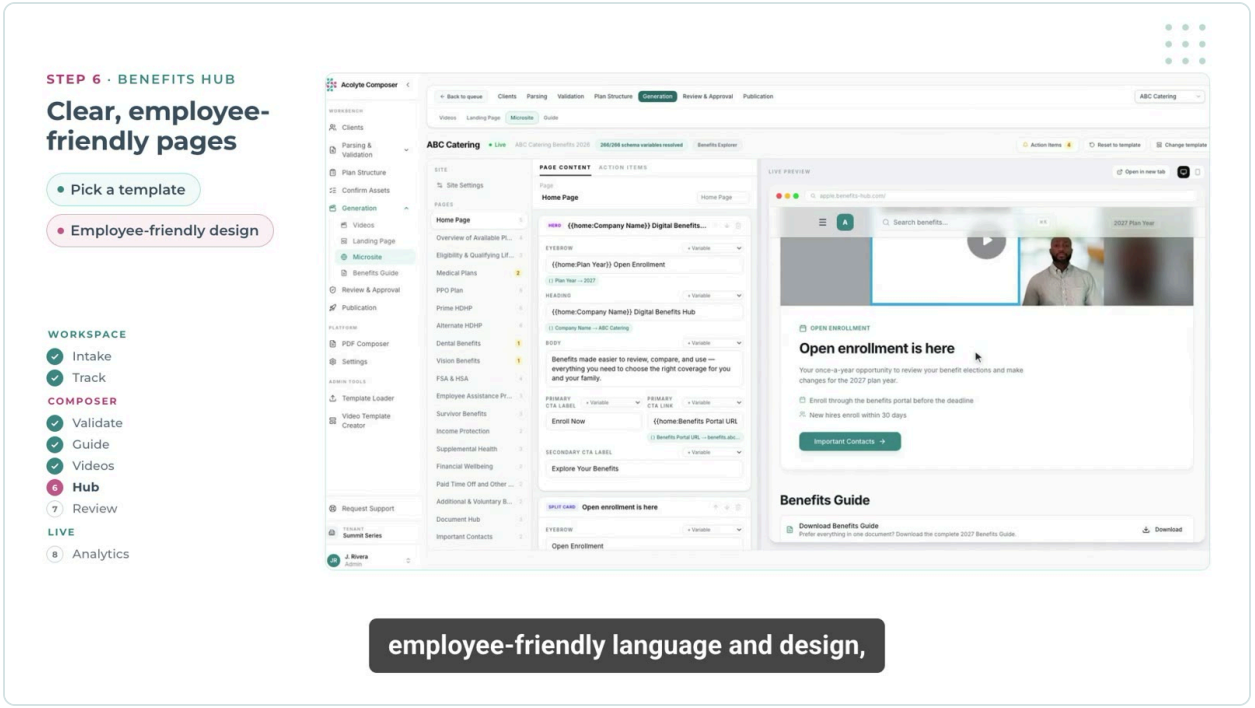

NARRATION

“During generation, associates can also type small script edits into any chapter, like adding the client's name, before it renders. Quick customization, without rebuilding the video.”

WHAT THE SCREEN SHOWS

Review screen mockup: the words "ABC Catering's" typed into a chapter's script line before rendering. (Mockup on existing UI.)

Build the hub

Still at 3:31

ON-SCREEN HEADLINE

STEP 6 · BENEFITS HUB

Clear, employee-friendly pages

ON-SCREEN LABELS

Pick a template | Employee-friendly design | Filled with plan data

SLIDE TAKEAWAY

The benefits hub is built in clear, employee-friendly language and design from plan data.

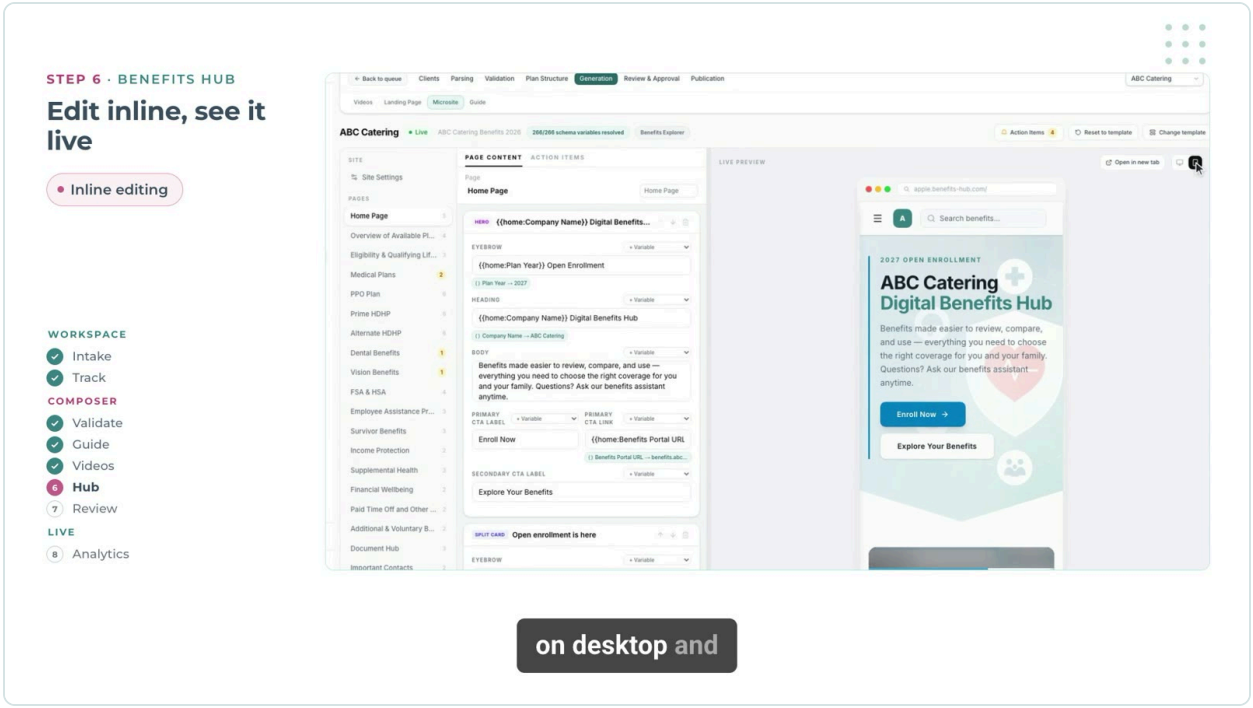

NARRATION

“With the videos ready, build the digital benefits hub. Pick a template, and Composer builds every page in clear, employee-friendly language and design, filled with the client's plan data.”

WHAT THE SCREEN SHOWS

Microsite builder: a template is chosen and the hub is built page by page in the live preview.

Edit inline

Still at 3:42

ON-SCREEN HEADLINE

STEP 6 · BENEFITS HUB

Edit inline, see it live

ON-SCREEN LABELS

Inline editing | Desktop and mobile

SLIDE TAKEAWAY

Edit inline and see it live on desktop and mobile.

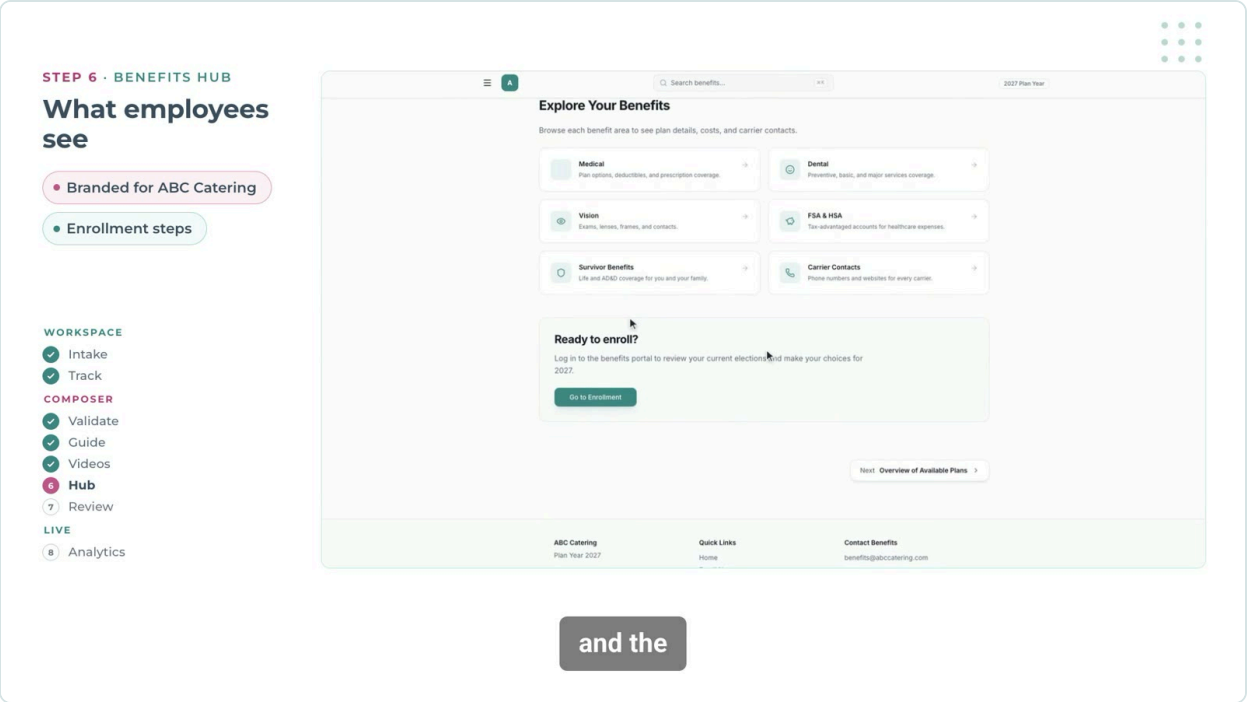

NARRATION

“Then edit inline. Change any section, and the live preview updates instantly, on desktop and mobile.”

WHAT THE SCREEN SHOWS

Hub editor: a section's text edited inline, live preview updating, then the mobile preview.

The employee view

Still at 3:53

ON-SCREEN HEADLINE

STEP 6 · BENEFITS HUB

What employees see

ON-SCREEN LABELS

- Branded for ABC Catering
- Enrollment steps
- Open enrollment videos built in

SLIDE TAKEAWAY

What employees see: one branded hub for open enrollment.

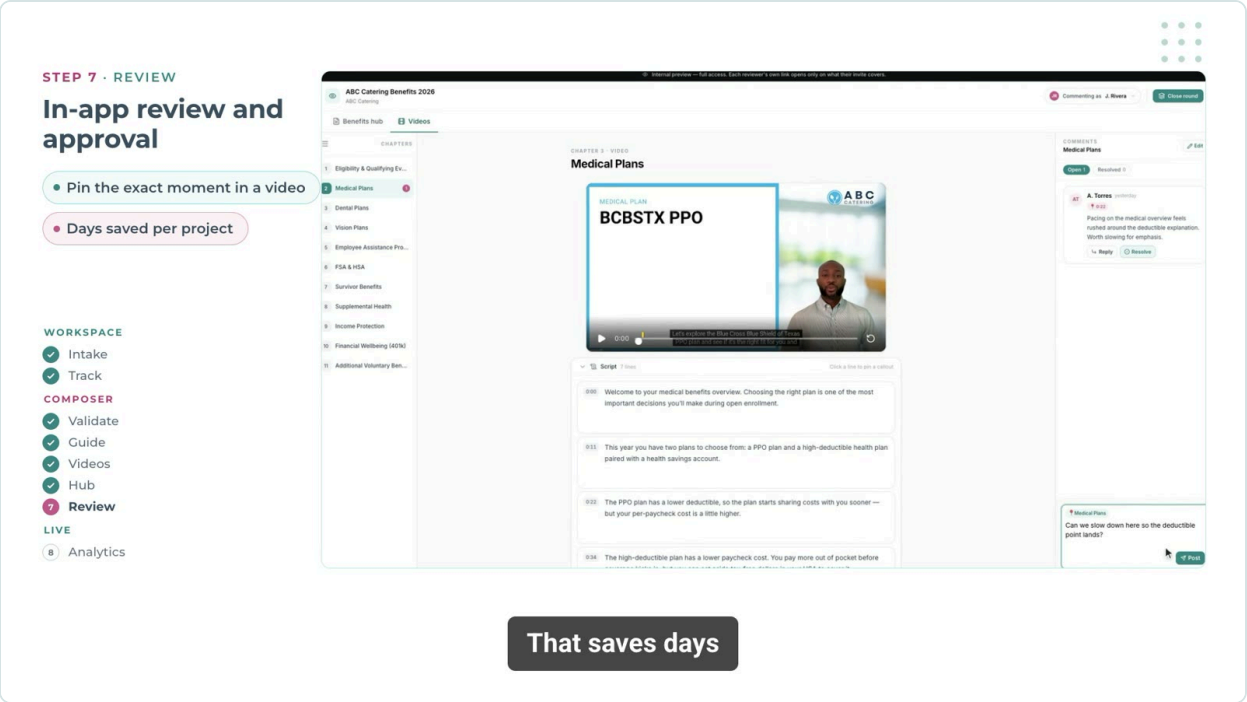

NARRATION

“This is what employees see: a branded hub for ABC Catering, with enrollment steps, benefit pages, the guide to download, and the open enrollment videos built in.”

WHAT THE SCREEN SHOWS

The employee-facing ABC Catering hub: enrollment steps, benefit pages, guide download and embedded OE videos.

Review and approve

Still at 4:09

ON-SCREEN HEADLINE

STEP 7 · REVIEW

In-app review and approval

ON-SCREEN LABELS

- Pin the exact moment in a video
- Days saved per project
- Thousands of hours saved

SLIDE TAKEAWAY

In-app review replaces chasing feedback over email; thousands of hours saved.

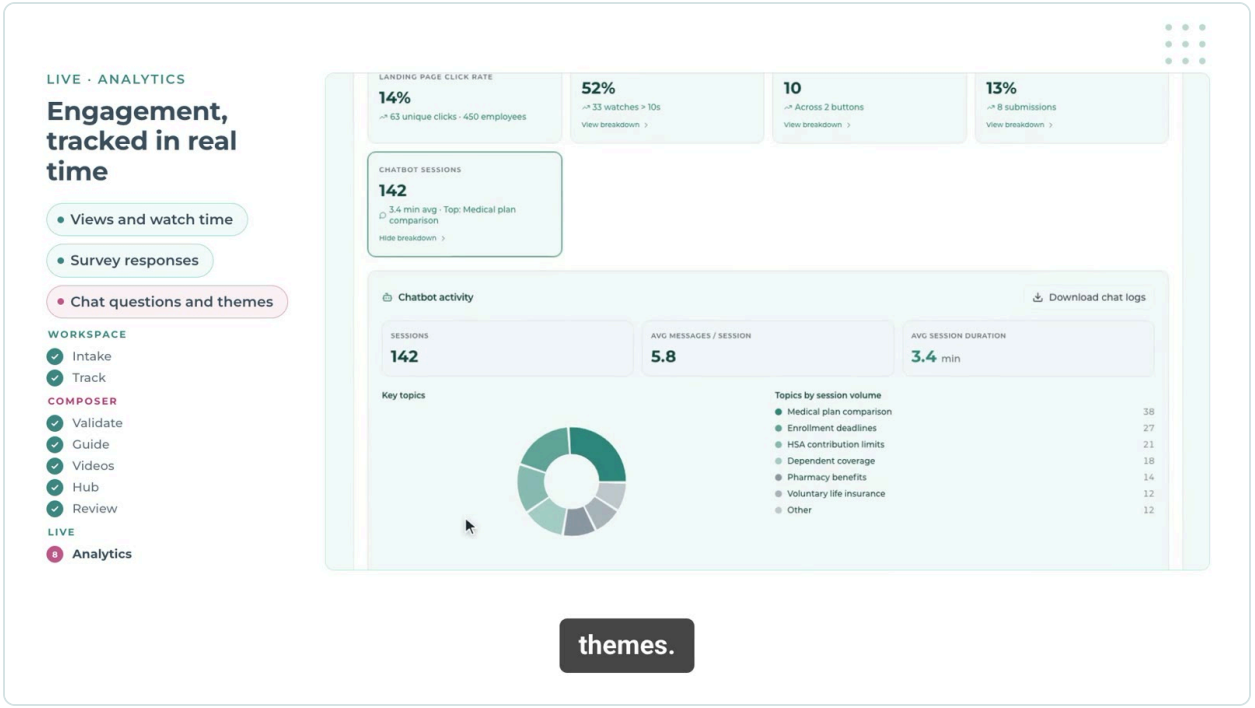

NARRATION

“Instead of chasing feedback over email, clients and associates review right in the app: comment on any page, pause a video to flag the exact moment, then resolve and approve. That saves days on every project, and thousands of hours across the organization.”

WHAT THE SCREEN SHOWS

Reviewer link: a comment posted and resolved on a page, then a video paused to pin a comment at an exact moment.

Real-time analytics

Still at 4:26

ON-SCREEN HEADLINE

LIVE · ANALYTICS

Engagement, tracked in real time

ON-SCREEN LABELS

Views and watch time · Survey responses · Chat questions and themes

SLIDE TAKEAWAY

Engagement is tracked in real time, and chat conversations are analyzed for common questions and themes.

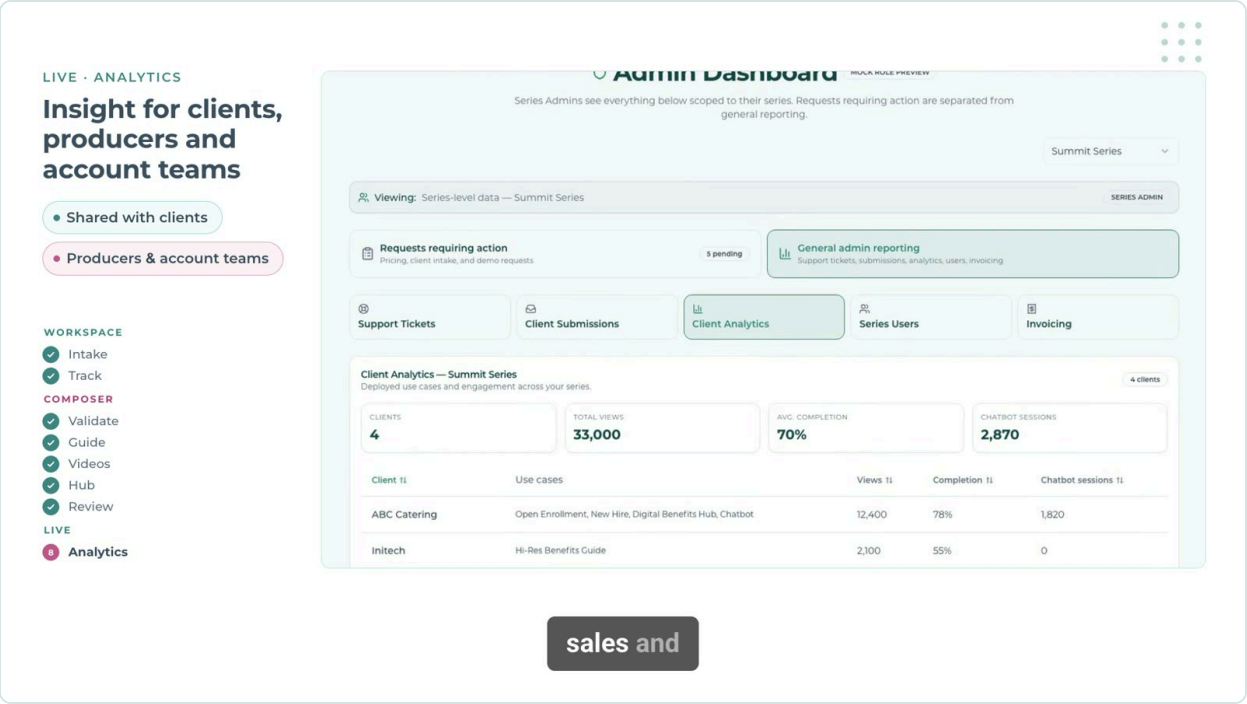

NARRATION

“Once it's live, engagement is tracked in real time: video views and watch time, survey responses, and every chat conversation, analyzed in the app to surface common questions and themes.”

WHAT THE SCREEN SHOWS

Workspace reporting: video watch rate, survey responses, and chat activity with key topics and topics by session volume.

Insights for the team

Still at 4:38

ON-SCREEN HEADLINE

LIVE · ANALYTICS

Insight for clients, producers and account teams

ON-SCREEN LABELS

- Shared with clients
- Producers & account teams
- Sales and renewals

SLIDE TAKEAWAY

Shared insight for clients, producers and account teams.

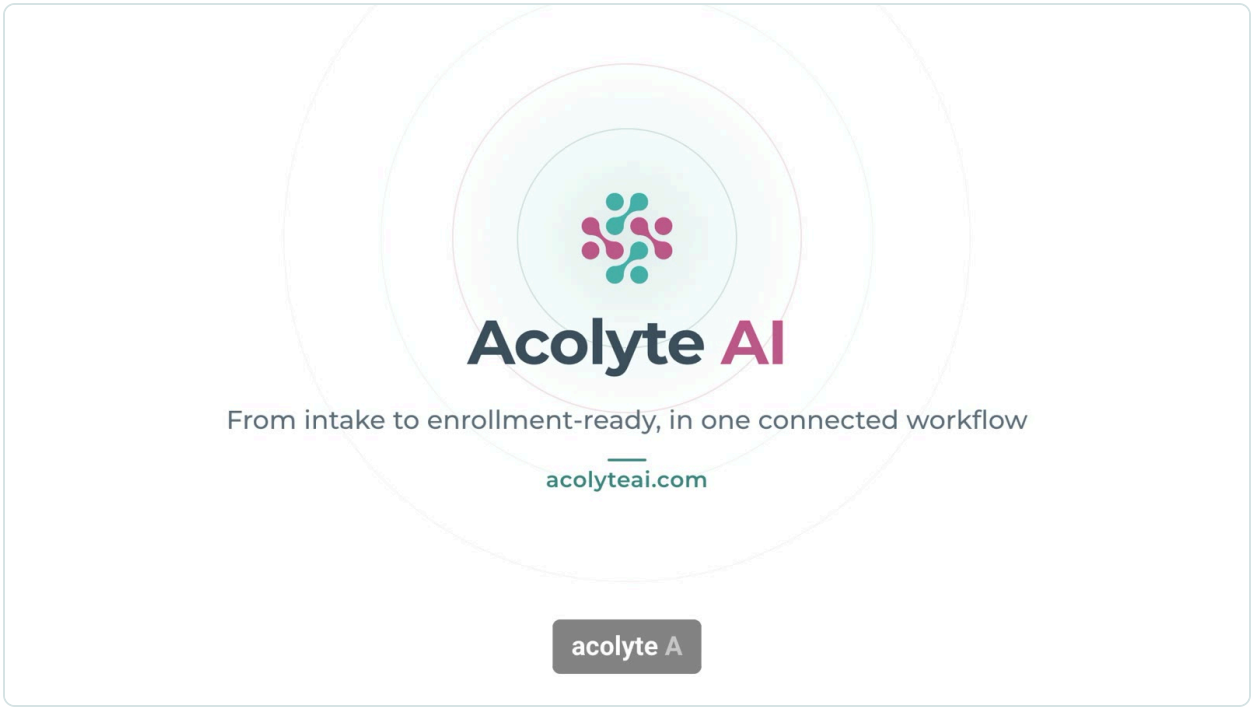

NARRATION

“Associates share the reporting with their clients, and producers and account teams see engagement across every client, ready for sales and renewal conversations.”

WHAT THE SCREEN SHOWS

Admin Client Analytics: engagement across every client.

Close

Still at 4:48

SLIDE TAKEAWAY

From intake to enrollment-ready, in one connected workflow.

NARRATION

“Acolyte AI. From intake to enrollment-ready, in one connected workflow. Learn more at acolyte A I dot com.”

WHAT THE SCREEN SHOWS

Closing card: Acolyte AI, "From intake to enrollment-ready, in one connected workflow," acolyteai.com.
